

PROCEEDINGS
OF THE
ROYAL SOCIETY OF LONDON
SERIES B
CONTAINING PAPERS OF A BIOLOGICAL CHARACTER
VOL. XC.

LONDON:
PRINTED FOR THE ROYAL SOCIETY AND SOLD BY
HARRISON AND SONS, ST. MARTIN'S LANE,
PRINTERS IN ORDINARY TO HIS MAJESTY.

JULY, 1919.

LONDON :
HARRISON AND SONS, PRINTERS IN ORDINARY TO HIS MAJESTY
ST. MARTIN'S LANE.

CONTENTS.

SERIES B. VOL. XC.

No. B 623.—October 1, 1917.

	PAGE
Observations and Experiments on the Susceptibility and Immunity of Rats towards Jensen's Rat Sarcoma. By J. C. Mottram, M.B. (Lond.), and Sidney Russ, D.Sc. (Lond.), Cancer Research Laboratories, Middlesex Hospital. Communicated by Prof. H. G. Plimmer, F.R.S. (Plates 1 and 2)	1
The Germicidal Action of Ultra-Violet Radiation, and its Correlation with Selective Absorption. By C. H. Browning, M.D., D.P.H., Director of the Bland-Sutton Institute of Pathology, Middlesex Hospital, and Sidney Russ, D.Sc., Physicist to the Middlesex Hospital. Communicated by Prof. A. W. Porter, F.R.S. (Plate 3)	33
The Isolation from Peat of Certain Nucleic Acid Derivatives. By W. B. Bottomley, M.A., Professor of Botany, University of London, King's College. Communicated by F. W. Oliver, F.R.S.	39

No. B 624.—December 1, 1917.

The Distribution in Wheat, Rice, and Maize Grains of the Substance, the Deficiency of which in a Diet causes Polyneuritis in Birds and Beri-beri in Man. By Harriette Chick and E. Margaret Hume. Communicated by Dr. C. J. Martin, F.R.S.	44
The Effect of Exposure to Temperatures at or above 100° C. upon the Substance (Vitamine) whose Deficiency in a Diet causes Polyneuritis in Birds and Beri-beri in Man. By Harriette Chick and E. Margaret Hume. Communicated by Dr. C. J. Martin, F.R.S.	60
Two Cases of Congenital Night-Blindness. By Sir W. de W. Abney, K.C.B., F.R.S.	69

No. B 625.—January 1, 1918.

The Enzymes Concerned in the Decomposition of Glucose and Mannitol by <i>Bacillus coli communis</i> . Part II.—Experiments of Short Duration with an Emulsion of the Organisms. By Egerton Charles Grey (Beit Memorial Research Fellow). Communicated by Dr. A. Harden, F.R.S.	75
---	----

	PAGE
The Enzymes Concerned in the Decomposition of Glucose and Mannitol by <i>Bacillus coli communis</i> . Part III.—Various Phases in the Decomposition of Glucose by an Emulsion of the Organisms. By Egerton Charles Grey (Beit Memorial Research Fellow). Communicated by Dr. A. Harden, F.R.S.	92
The Germicidal Action of Ultra-violet Radiation and its Correlation with Selective Absorption.—Addendum. By C. H. Browning, M.D., and Sidney Russ., D.Sc. Communicated by W. B. Hardy, Sec. R.S.	107

No. B 626.—April 2, 1918.

The Germicidal Action of Ultra-violet Radiation and its Correlation with Selective Absorption.—Addendum. By C. H. Browning, M.D., and Sidney Russ, D.Sc. Communicated by W. B. Hardy, Sec. R.S.	107
CROONIAN LECTURE: Evolution and Symmetry in the Order of the Sea-pens. By Prof. Sydney J. Hickson, F.R.S.	108
Bactericidal Properties Conferred on the Blood by Intravenous Injections of Diamino-Acridine Sulphate. By C. H. Browning and R. Gulbransen. Communicated by Prof. R. Muir, F.R.S.	136
The Isolation and Serological Differentiation of <i>Bacillus tetani</i> . By W. J. Tulloch, M.D., Temp. Captain R.A.M.C. (Lecturer on Bacteriology at the University of St. Andrews). Communicated by Sir David Bruce, F.R.S., Chairman of the W.O. Committee for the Study of Tetanus	145

No. B 627.—June 1, 1918.

The Formation of Nitrites from Nitrates in Aqueous Solution by the Action of Sunlight, and the Assimilation of the Nitrites by Green Leaves in Sunlight. By Benjamin Moore, D.Sc., F.R.S.	158
Action of Light Rays on Organic Compounds, and the Photo-synthesis of Organic from Inorganic Compounds in Presence of Inorganic Colloids. By Benjamin Moore, D.Sc., F.R.S., and T. A. Webster.	168
Growth of Trees, with a Note on Interference Bands formed by Rays at Small Angles. By A. Mallock, F.R.S.	186
On the Efficiency of Muscular Work. By M. Greenwood, Captain R.A.M.C. (T.F.), Lister Institute of Preventive Medicine. Communicated by Prof. Leonard Hill, F.R.S.	199
The Galvanometric Measurement of "Emotive" Physiological Changes. By A. D. Waller, M.D., F.R.S.	214

No. B 628.—July 1, 1918.

On the Quantitative Differences in the Water-Conductivity of the Wood in Trees and Shrubs. Part I.—The Evergreens. By J. Bretland Farmer, F.R.S., Professor of Botany in the Imperial College of Science and Technology	218
On the Quantitative Differences in the Water-Conductivity of the Wood in Trees and Shrubs. Part II.—The Deciduous Plants. By J. Bretland Farmer, F.R.S., Professor of Botany in the Imperial College of Science and Technology	232

	PAGE
The Production of Anthocyanins and Anthocyanidins.—Part III. By Arthur Ernest Everest, D.Sc., Ph.D. Communicated by Dr. F. W. Keeble, F.R.S.....	251
Note on the Nature of Growths in Colloidal Silica Solutions. By H. Onslow, Trinity College, Cambridge. Communicated by Prof. F. G. Hopkins, F.R.S.	266

No. B 629.—October 17, 1918.

Brevity, Frequency of Rhythm, and Amount of Reflex Nervous Discharge, as indicated by Reflex Contraction. By N. B. Dreyer and C. S. Sherrington, F.R.S.	270
CROONIAN LECTURE.—The Physiological Basis of Thirst. By Major Walter B. Cannon, M.R.C., U.S. Army; George Higginson Professor of Physiology, Harvard University	283
The Mechanism and Control of Fibrillation in the Mammalian Heart. By J. A. MacWilliam, F.R.S.	302

No. B 630.—December 20, 1918.

The Artificial Production of Echinoderm Larvæ with Two Water-Vascular Systems, and also of Larvæ Devoid of a Water-Vascular System. By E. W. MacBride, F.R.S. (Plates 4-10)	323
Changes of Electrical Conductivity under Geotropic Stimulation. By James Small, M.Sc. (Lond.), F.L.S. Communicated by Dr. A. D. Waller, F.R.S.	349

No. B 631.—February 17, 1919.

Researches on Growth and Movement in Plants by Means of the High Magnification Crescograph. By Sir Jagadis Chunder Bose, assisted by Guruprasanna Das, L.M.S. Communicated by Prof. S. H. Vines, F.R.S.	364
Investigations dealing with the State of Aggregation. Part IV.—The Flocculation of Colloids by Salts containing Univalent Organic Ions. By S. B. Schryver, D.Sc., and Nita E. Speer. Communicated by V. H. Blackman, F.R.S.....	400

No. B 632.—April 1, 1919.

Observations on Changes in the Blood Pressure and Blood Volume following Operations in Man. (Preliminary Communication.) By Captain H. C. Bazett, M.C., R.A.M.C. Communicated by Prof. W. M. Bayliss, F.R.S.....	415
On the Cooling and Evaporative Powers of the Atmosphere, as Determined by the Kata-thermometer. By Leonard Hill, F.R.S., and D. Hargood-Ash.....	438
The Influence of External Concentration on the Position of the Equilibrium attained in the Intake of Salts by Plant Cells. By Walter Stiles, M.A., Lecturer in Botany in the University of Leeds, and Franklin Kidd, M.A., D.Sc., Fellow of St. John's College, Cambridge. Communicated by Prof. Bayliss, F.R.S.	448

No. B 633.—May 15, 1919.

On the Four Visible Ingredients in Banded Bituminous Coal: Studies in the Composition of Coal, No. 1. By Marie C. Stopes, D.Sc., Ph.D., Fellow and Lecturer in Palaeobotany, University College, London. Communicated by Sir George Beilby, F.R.S. (Plates 11 and 12)	470
The Comparative Rate of Absorption of Various Salts by Plant Tissue. By Walter Stiles, M.A., Lecturer in Botany in the University of Leeds, and Franklin Kidd, M.A., D.Sc., Fellow of St. John's College, Cambridge. Communicated by Prof. W. M. Bayliss, F.R.S.	487
Changes in the Teeth of the Guinea-pig, produced by a Scorbutic Diet. By S. S. Zilva, Ph.D., M.Sc., and F. M. Wells, Major, C.A.D.C. Communicated by Dr. A. Harden, F.R.S. (Plate 13)	505
On a New Factor in the Mechanism of Bacterial Infection. By W. E. Bullock and W. Cramer. Communicated by Prof. W. Bulloch, F.R.S.	513

No. B 634.—July 1, 1919.

The Distribution of the Serological Types of <i>B. tetani</i> in Wounds of Men who received Prophylactic Inoculation, and a Study of the Mechanism of Infection in, and Immunity from, Tetanus. By Major W. J. Tulloch, M.D., R.A.M.C., Lecturer in Bacteriology, University of St. Andrews, Member of the War Office Committee for the Study of Tetanus. Communicated by Major-General Sir David Bruce, F.R.S.	529
The Existence of Daily Growth-rings in the Cell Wall of Cotton Hairs. By W. Lawrence Balls, M.A., Sc.D. (Cantab.), late Fellow of St. John's College, Cambridge. Communicated by F. F. Blackman, F.R.S. (Plates 14, 15 and 16)	542
CROONIAN LECTURE.—The Biological Significance of Anaphylaxis. By Dr. H. H. Dale, F.R.S. (Abstract.)	556

OBITUARY NOTICES OF FELLOWS DECEASED.

Sir William Henry Power	i
Clement Reid (with portrait)	viii
Daniel Oliver (with portrait)	xi
Captain Geoffrey Watkins Smith	xvi
Hermann Graf zu Solms-Laubach (with portrait)	xix
Robert Bell.....	xxvi
Edward Hull (with portrait)	xxviii
Keith Lucas (with portrait).....	xxxi
Henry George Plimmer (with portrait)	xliii
Alfred Merle Norman (with portrait)	xlvi
